

AP POLY TECHFEST - 2022

Govt. of Andhra Pradesh is one of top three high performing states in India and set its target to become best state in the country. It hopes to impact the lives of every citizen in the State, enriching and transforming it through well-coordinated small, large and mega scale development programmes. It aims to create wealth of skilled human capital within the State to realize the objectives of Make in India.

Vision

To stimulate students' creativity and innovative thinking

Mission:

- The event is intended to be a platform for showcasing the very best of the young talent in a creative and innovative way.
- To meet the current Indian innovation scenario and to improve it by spreading awareness regarding innovation and research.
- To inspire students to improve the innovation culture in India along with promoting Make in India and skill Andhra Pradesh campaign
- To reach out to the innovators at the grass root level.
- To bridge the gap between innovation and entrepreneurship
- This platform would give the participants an opportunity to unleash their technical excellence.
- Stepping stone for diploma students to transform into a technocrats
