Subject: Accreditation of programs of the Technical Institutions - reg.

Sir,

It is stated that the purpose of accreditation of programs of educational institutions by National Board of Accreditation (NBA) is to promote and recognize excellence in Technical Education in these Institutions. The Institutions, students, employers and the public at large all benefit from the quality of standards verified through NBA accreditation.

NBA has been getting requests from many Indian Engineers working in Kuwait enquiring about the NBA accreditation of the programs of their Institutions from which they had graduated. Some of these Engineers were awarded degrees in **UG Civil Engineering, Computer Science & Engineering, Electrical & Electronics Engineering, Electronics & Communication Engineering and Mechanical Engineering** programs of **Madina Engineering College, Kamalapuram Road, Cuddapah Ho, Kadapa – 516001, Andhra Pradesh**. As per the extant process in Kuwait, the Kuwait Society of Engineers (KSE) issues NOC only to those Indian Engineers for extension of their visas who can produce NBA accreditation of the graduate program done by them from their mother Institution. The concerned Engineers are continuously submitting grievances to the Ministry of External Affairs/PMO/Ministry of Education through their grievance portal for help from the Govt. of India.

In view of the above, you are requested to direct **Madina Engineering College** to apply for NBA accreditation of their above-mentioned programs at the earliest. The Institutions may be directed that if they are already registered online with NBA, they may apply online to apply online on e-NBA portal of NBA through User ID and password already provided to them for accreditation of their programs. Those who are not registered online with NBA, may first apply for registration on e-NBA portal. For understanding the NBA norms and accreditation process, the Institutions may visit NBA's website nbaind.org.

Yours faithfully,

Asaul
